Subject: 2nd Student CV
Attachments: MK Resume.docx

Dear Julie,

Attached is the resume for the second student. Although he doesn't have the credentials that Christine has, he has taken my Intro to forensic Science, some major's general chemistry and appears to have great leadership skills. I think he is a winner. He is interested in law enforcement.

I would not be sure whether to work the students as a team or individually, or split between the two agencies if anything can be worked out.

My best again,

Ed Bartick
